CODESOFT JAVA DEVELOPMENT INTERNSHIP

Java programming & Development

An 4-week professional Internship Preperation Report

INTERNSHIP DURATION

10 August 2026 - 10 September 2026

STUDENT CREDENTIALS

Divyanshi Yadav

Enrollment / Roll No.
2SSCS1003001329

Program R Semester
B.Tech (CSE)

Host Organisation
Codesoft

Candidate & Program Overview

Candidate Details

Student Name: DIVYANSHI YADAV

Roll Number: 25SCS1003001329

Degree: B.Tech (Computer Science & Engineering)

Academic Batch: 2026-2027

University: IILM University, Greater Noida, U.P.

Internship Profile

Program Name: CodeSoft Java Development Internship

Specialization Domain: Java programming & Development

Duration: 4 Weeks (05 August 2026-05 September 2026)

Certificate ID: 5f40e52

Offer Letter Ref: BY26RY229077

Organization Profile: CodeSoft

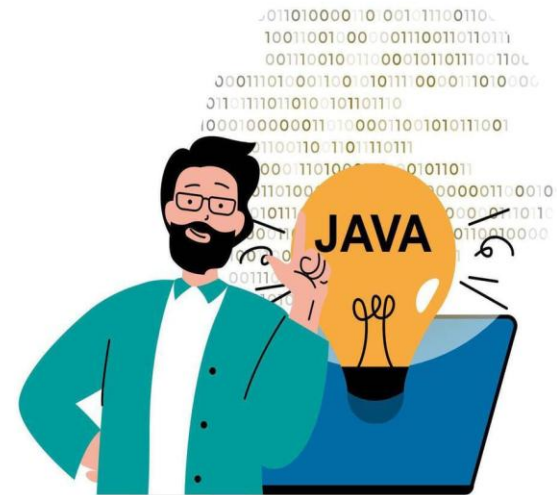

CodeSoft is a virtual internship platform that provides students with practical exposure through industry-oriented projects and tasks in programming and technology domains.

Internship focus: Provides practical learning through hands-on programming tasks and project-based experience.

Core Focus Domains: Java programming, Object=Oriented programming. Problem Saving , and Application Development.

Problem Statement & Industry Context

The Industry Challenge

Students learning Java programming often have limited exposure to applying programming concepts in practical, project-based environments.

Understanding Java syntax is important, but real-world development also requires problem-solving, object-oriented programming, debugging, and building functional applications..

The Solution Scope

The internship provides hands-on experience through Java programming tasks and projects, helping students apply programming concepts in practical scenarios.

The focus is on strengthening Java fundamentals, Object-Oriented Programming, problem-solving, coding practices, and application development.

Core Project Objectives

Java Fundamentals

Strengthen Java fundamentals including syntax, variables, data types, operators, loops, and conditional statements.

Object-Oriented Programming

Understand and implement OOP concepts such as classes, objects, inheritance, encapsulation, polymorphism, and abstraction.

Problem Solving & Programs

Develop Java programs using logical problem-solving techniques and apply programming concepts to practical tasks.

Code Quality & Debugging

Practice writing structured Java code, identify errors, debug programs, and improve code readability and implementation.

Technologies & Tools Used

Java Programming

- Java Fundamentals
- Variables, data types & operator
- Conditional statements & loops

Object-Oriented Programming

- Classes & Objects
- Encapsulation
- Inheritance & Polymorphism

Problem Solving

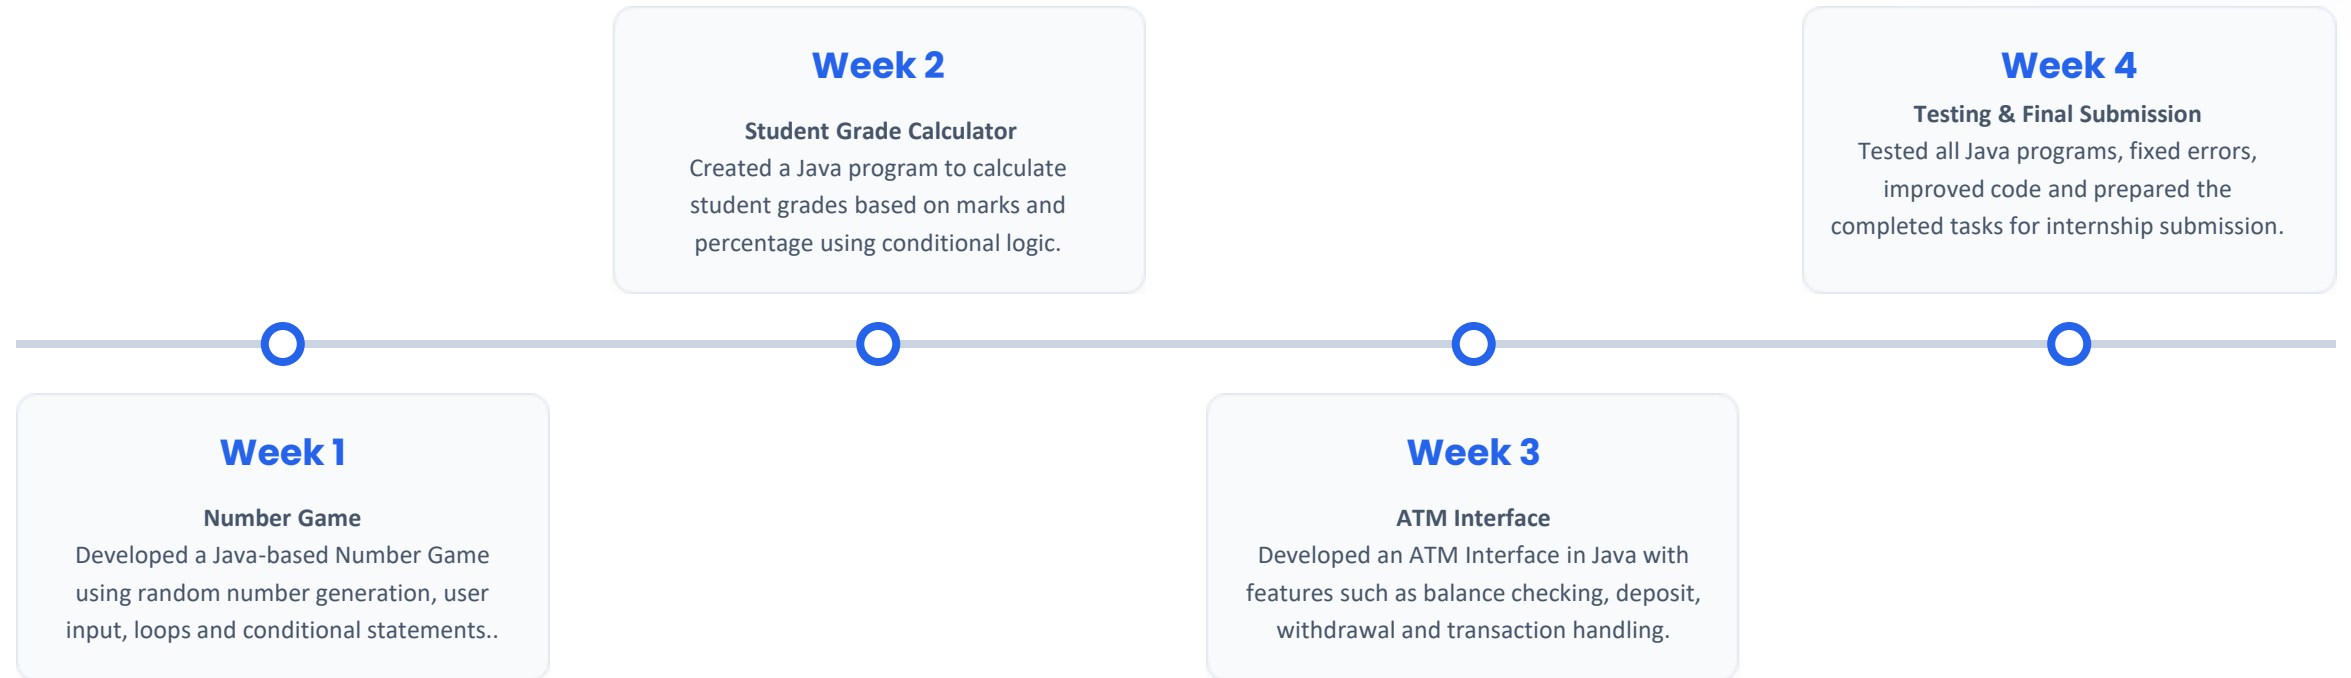

- Logical programming
- Algorithms & basic problem solving
- Practical Java programs

Development & Debugging

- Writing and testing Java programs
- Error Identification & debugging
- Code organization and readability

Curriculum Timeline (Weeks 1 to 4)

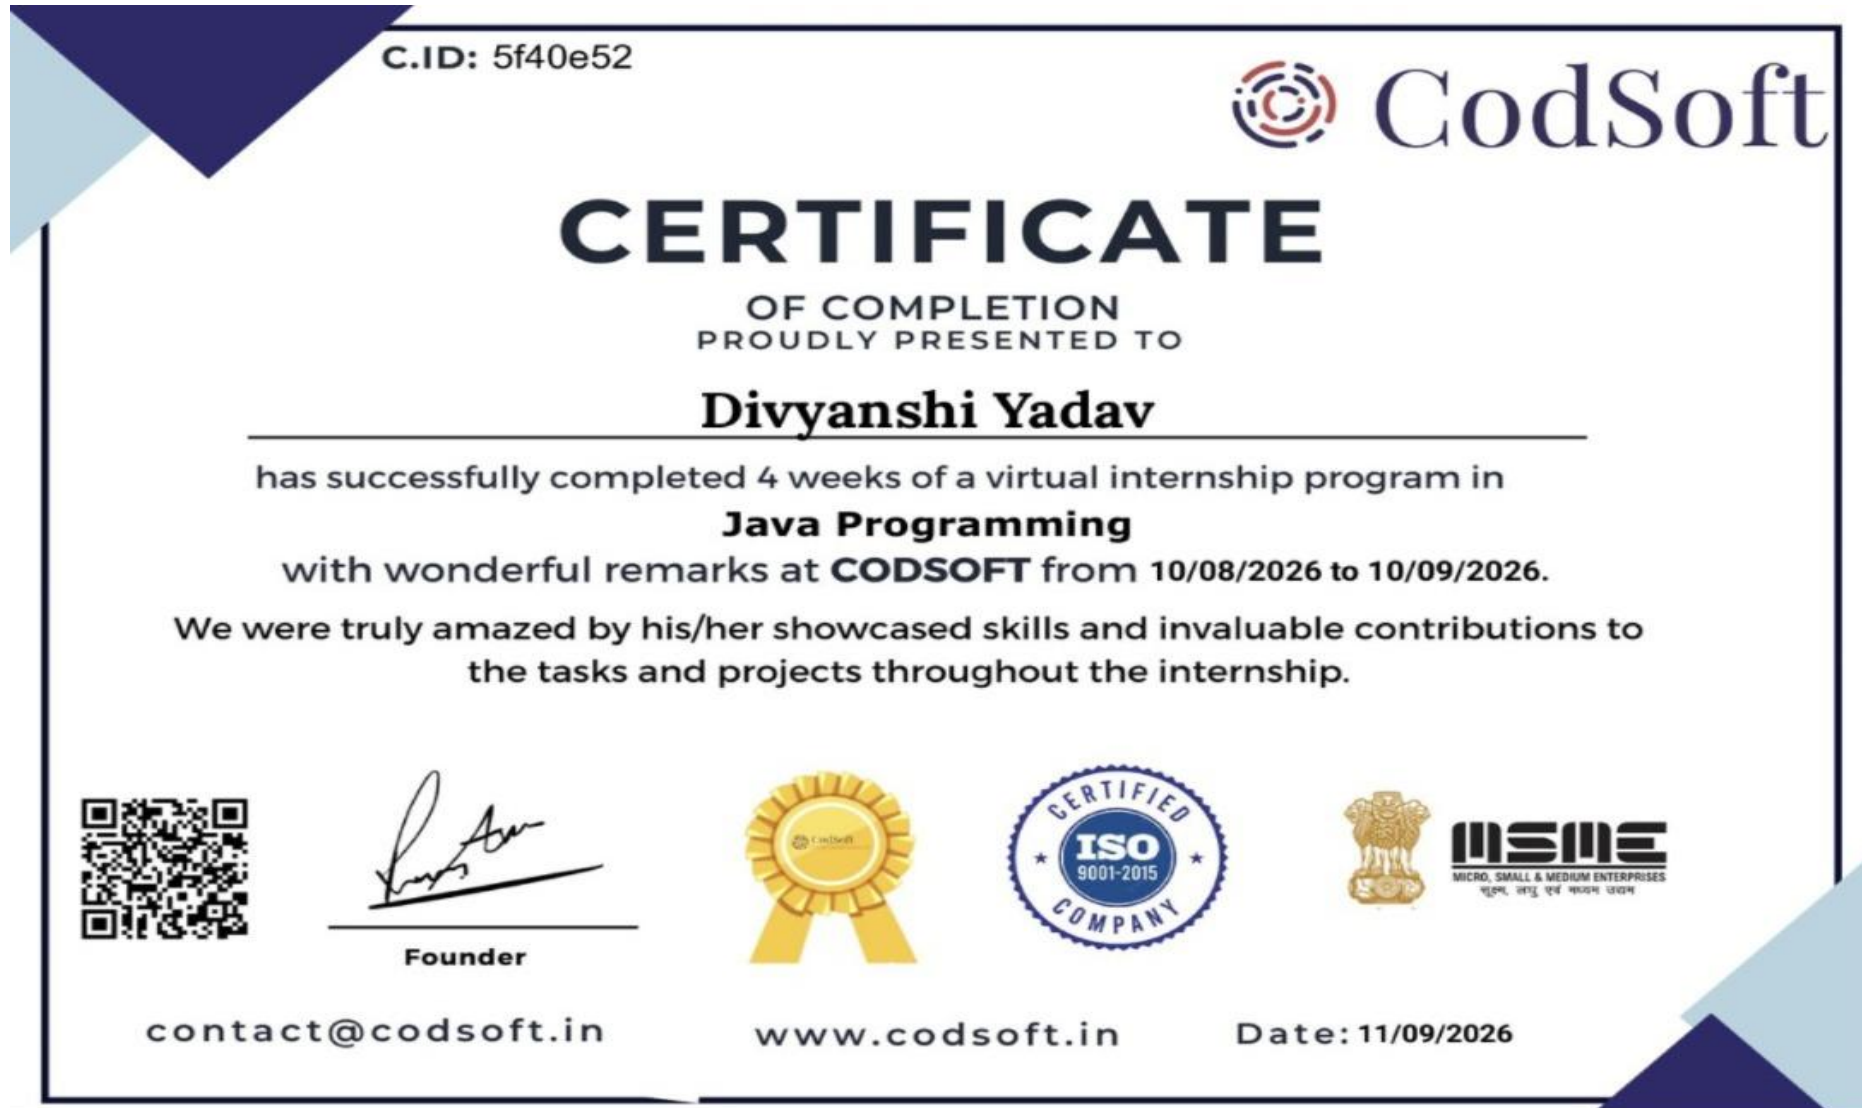

Key Projects & Demonstrated Skills

- ✓ **Number Game:** Developed a Java-based number guessing game using random number generation, user input, loops, and conditional statements.
- ✓ **Student Grade Calculator:** Created a Java program to calculate grades based on student marks using arithmetic operations and conditional logic.
- ✓ **ATM Interface:** Developed an interactive ATM program with options for balance checking, deposit, withdrawal, and basic transaction handling.
- ✓ **Java & OOP Skills:** Applied Java fundamentals and Object-Oriented Programming concepts such as classes, objects, methods, and encapsulation.
- ✓ **Testing & Debugging:** Tested the programs, identified and fixed errors, and verified the expected outputs.

Certification & Official Verification

Verification Metric	Official Record / Credential Details
Internship Title	Java Programming Virtual Internship
Issuing Organization	CodeSoft
Certificate ID	08 September 2026
Certificate ID	5f40e52
Offer Letter Ref	BY26RY229077

Certification & Official Verification

Thank You!
